Response to Arguments

1. Arguments filed on April 15, 2004 have been entered. Claims 1-8 are pending in the application.

Allowable Subject Matter

2. **Claims 1-8** are allowed.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed because the Examiner agrees with Applicants that Flynn et al do not teach or suggest a coating composition consisting essentially of (A) at least one compound which contains at least two methacrylate groups and at least one isocyanate-reactive group and which is free from isocyanate groups or blocked isocyanate groups, (B) at least one blocked polyisocyanate, which does not contain any ethylenically unsaturated groups, (C) at least one a photoinitiator since the coating composition of Flynn et al further comprises an epoxy resin which although contains isocyanate-reactive groups but does not contain at least two methacrylate groups of claimed compound (A) (See column 4, lines 16-26).

Closest prior art of Valet (US 6,620,857) does teach a coating composition of claimed invention (See column 1, lines 41-42, 47-49, 55). However, the coating composition of Valet is cured first by thermal treatment, then by photochemical treatment (See column 1, lines 56-58; column 17, lines 43-45).

Claims 2-8 are allowed as further limiting allowed claim 1.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
